

Typeqast announces IT partnership with Startupbootcamp Commerce program

11-Mar-2019

Amsterdam, 11 March 2019 – [Startupbootcamp's Commerce](#) global startup and scale-up innovation program announces it has entered into a two-year partnership with *Typeqast* – software development and cloud engineering company, to support the companies selected to participate in its acceleration program in Amsterdam.

Being involved with Startupbootcamp in The Netherlands will enable Typeqast to witness commerce trends and innovations at their origin and get to know the promising startups. In exchange, program participants will benefit from its architecture support, software development and cloud engineering services.

[Ernst Hoestra](#), Managing Director of the Startupbootcamp Commerce program, commented: *“Typeqast is a great company to partner with that can help our startups to sharpen and grow their businesses. Selected startups in the program are operating on the*

verge of Logistics Solutions, Security & Fraud, AI, Data & Behavioral Analytics, Ad & Marketing Solutions, Sales Tech and Retail Tech industries. They will now have the opportunity to scale their ventures with the help of Typeqast.”

[Sonja Meijerink](#), Typeqast CEO, said, “We are excited to be partnering with Startupbootcamp Commerce. With their creativity and agility, Startupbootcamp’s startups are able to quickly adapt to the needs of consumers and companies. This will be resulting in innovative solutions using the latest technologies. Typeqast is very proud and honoured to help these startups in overcoming their technological challenges. Not only will we offer our knowledge, we strongly believe that we will also learn a great deal from these startups.”

About Typeqast

Typeqast is a software development and cloud engineering company, mainly partnering with Dutch companies. Headquartered in Amsterdam and with its technology centers in Croatia, only a few hours away from Amsterdam. Same time zone, similar culture,

English speaking professionals. Typeqast is specialized in setting up teams with only the best software developers. These teams are very experienced in scoping, setting up and delivering complete software development journeys for Dutch companies.

Typeqast builds complete (front- and back-office) systems and (e-commerce) applications in .Net, JAVA and PHP. But also native mobile apps for iOS in Swift or Objective-C and Android using Kotlin or Java. To complete the customer journey, front-end and UX design as well as DevOps for managing applications in the cloud (AWS, Azure, Google) are part of the service portfolio. For all projects taken on, fast and timely delivery is guaranteed. The work is primarily done remote but traveling to the Netherlands for, e.g. on-boardings, releases, etc is arranged easily and quickly. Typeqast works for customers like Franx, La Place, Adeezy, Quickparking, Dean One, Alphacomm, Typla, and Parkmobile.
